

# 2017-04-11 Meeting notes

## Date

 11 Apr 2017

## Attendees

- Kathleen Carr
- 

## Agenda

- Review previous action items
- Discuss NSIDC questions on AdditionalAttributes and Multiple CampaignIDs
- Review open tickets

-  [CMR-3856](#) - JIRA project doesn't exist or you don't have permission to view it.
-  [CMR-3849](#) - JIRA project doesn't exist or you don't have permission to view it.
-  [CMR-3850](#) - JIRA project doesn't exist or you don't have permission to view it.

## Discussion Items

Item	Notes
Adding ThemeID to AdditionalAttributes	<p>Is ThemeID the same as CampaignID?</p> <p>The question is: how should the additional attribute look that contains the ThemeID? The context is Descriptor Maker; so the question is where it maps in ECHO 10. Descriptor Maker is not finding it.</p> <p>There is a JIRA ticket number for this.</p> <div> <a href="#">CMR-3908</a> - JIRA project doesn't exist or you don't have permission to view it.</div> <p>Will need to write into ISO twice - once as an Operation, and once as an Additional Attribute, for Descriptor Maker.</p>
Adding AircraftID to AdditionalAttributes	<p>settled; Unit Type should be set as 'not applicable'</p>
Multiple CampaignIDs for a single dataset	<p>Ingest does already read multiple campaigns. Multiple results appeared in ECHO 10 and UMM.</p> <p>Start date and stop date will be addressed as part of the JIRA ticket.</p>
Warning messages on Ingest	<p>Would like to see all Warning messages at once;</p> <p>coming in UAT - if ingest fails, no warnings; else all warning</p> <div> <a href="#">CMR-4045</a> - JIRA project doesn't exist or you don't have permission to view it.</div>

## Action items

- ☐ Discuss Descriptor Maker questions with Jon Pals; and update

 [CMR-3908](#) - JIRA project doesn't exist or you don't have permission to view it. with Jon's answers [Erich Reiter](#)

☒ Close CMR-3856 as not reproducible. Lauren Frederick
